### DETAILED ACTION

*The Examiner has tried to contact the Applicant. However, the message has not returned by Applicant. Therefore, the Election/Restrictions will be sent out for the Applicant's election in response.*

#### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-40, drawn to method and apparatus of telecommunication system in particular in an area of a smart home environment to control the devices in a central control unit, classified in **class 455, subclass 414.2**.
- II. Claims 41-60, drawn a device for a telecommunication handset or mobile unit, wherein the controller units are propagating a control message toward the circuit switch to communicate with other devices; for example: video or camera, classified in **class 455, and subclass 426.1**.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from

each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as storing the calling party number. See MPEP § 806.05(d).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
